Creative Kids

Classes meet once a week from 12:00 pm—3:00 pm. The children eat lunch, rest on their mats and participate in the daily creative kids class.

Creative Kids is similar to our morning program in that there is a combination of structured activities, group times and free play but with an additional concentration on the daily content area and topic.

Read on to learn more about the *Creative Kids* program.

Mondays

The Book Club

Children will be introduced to all different children's authors and different types of children's literature. Each week the children will learn about a new author and explore his/her books. They will then become involved in an activity focused on the author or on one of the books. Children will develop a love for literature which will be with them their whole life.

Tuesdays

Little Artist -

Children love to make things and in Little Artists they will have the opportunity to do so! Each week we will use our artsy imagination and creativity to make a seasonal craft or open ended art piece. Children develop a sense of pride and achievement upon completion of their craft and art. Most importantly we have a ton of fun! You will love the cute things they will take home!

Wednesday

The Math Club 1 2 3 4 5 6 7 8 9 10

Children will be introduced to math concepts in a fun and exciting way. Each week the children will be working on a different mathematical skill and will participate in an activity that goes along with it. They will learn that Math can be fun!!

Thursday

Moving and Grooving to Music

Our preschool music and movement class are designed to get kids up and moving. This class will include various styles of music through sing-a-longs, chanting, large and small movement activities, dancing, marches, rhythm patterns, finger plays, instrument play and more. It is all about children expressing their unique talents and about having fun.

Friday

Little Scientists

Experiments which engage all of the five senses and invite observation and critical thinking will be presented. Hands on participation will be encouraged! Some of the favorite experiences to date include making volcanoes and tornadoes, planting seeds, mixing moon goop and making rainbow bubbles.
